CogniTel Global Music

CogniTel Global Music in association with TuneFlow provides an exciting new place for music lovers to discover new music and new artists. But it's much more than that.

TuneFlow is also about putting the **ARTIST FIRST**. At TuneFlow, artists are given the opportunity to get their music out to the world without restrictive contracts. And when you buy music at TuneFlow, it's the artists who get the lion's share (**37% to 75%** of total music revenues, and up to **88%** of profits), not some big record label. TuneFlow also helps artists by providing invaluable exposure, infrastructure, marketing support, and more.

Every month, TuneFlow challenges artists around the world to write and record new, original songs based on one of four new titles we've chosen. Artists have one month to write, record and submit their entries. As a member of TuneFlow you can listen to, review and rate each month's tournament songs and help us choose the winners. The songs with the best average ratings at the end of the month win. It's "battle of the bands" Internet style!
