# Herding Trial Arena Dog (HTAD) - Course #4

Arena Size  
135 x 250

# Herding Trial Arena Dog - Course #4 Description

The handler's post is located 20 ft. from the North fence, in the center. The panel obstacle is set 20 ft. from the East side of the arena, at least 110 ft. from the handler's post; the opening is 12 ft. The L-shaped obstacle is located in the Northeast corner of the arena. Both sides of the obstacle are 10 ft. long with an aisle 4 ft. wide. The freestanding pen is located 30 ft. from the West side and approximately one-third of the length of the arena from the North and should be 8-10 ft. on each side for sheep. The sorting area is located halfway between the free-standing pen and Obstacle 1.

## 1. Gather

The stock are set out in the arena. The dog is sent to gather the animals and bring them to the post. The stock are moved clockwise around the post.

HTAD III – the handler remains at the post while the dog gathers the stock.

HTAD II – the dog remains at the post; the handler may go halfway to the stock before sending the dog.

HTAD I – the dog may be taken halfway to the set-out point; the handler may approach to within 15 ft. of the stock.

## 2. Drive

The stock are driven to Obstacle 1. HTAD III handlers must stay at handler's post. HTAD II handlers may go half the distance to Obstacle 1, then remain at that distance for the remainder of the drive. HTAD I handlers may accompany the stock. The drive ends when the stock reach a point 10 ft. in front of Obstacle 1.

## 3. Obstacle 1

The handlers remain at the designated locations while the stock are taken through the obstacle. Once the stock have cleared the obstacle, the handler may move from the handler's post. Just past Obstacle 1, the stock are turned toward the East side of the arena, then back toward the North side, toward Obstacle 2. Scoring for this section ends when the stock have moved past the end of Obstacle 1 closest to the East side of the arena.

## 4. Obstacle 2

The stock should enter at the South opening of the obstacle and exit heading West. HTD I handlers may move anywhere relative to the obstacle but may not enter it. HTD II handlers may move along the first section of the panel but may not move past the corner until the stock have exited. HTD III handlers may not pass the opening of the obstacle until the stock have exited. Scoring ends when the animals have exited.

## 5. Obstacle 3

The stock are taken across the arena and put into the free-standing pen. Scoring for the pen ends when the gate is closed.

## 6. Sort

The animals are removed from the pen and taken to the sorting area. HTAD I and II handlers briefly hold the stock, then take them to the repen. For HTAD III handlers, the sort will be a gate sort: The animals are taken to the repen gate.

Two marked animals are gate-sorted and repenned first, leaving three out in the arena. The sort ends for HTAD I and II at the conclusion of the hold, and for HTAD III when the gate is closed on the two sorted animals in HTAD III.

## 7. Repen

The stock are taken to the repen and held a short distance off the gate while it is opened, and then the animals are repenned. When a gate-sort has been used, the three animals that had been left out in the arena are repenned. The run ends when the repen gate is closed.
