True Story

In 1976 my father was in his wellness clinic when his receptionist announced that he had someone without an appointment in the waiting area. It was a lady he did not know. She had come from Indiana. She said she was “led” to my dad and was prepared to give him a natural formula

that was unequaled in its ability to support the regeneration of new, healthy cells.

There Was A Catch

There was one catch...she made him promise to make it available to the public at the least possible cost. He learned later that this would be quite a task, because the process to manufacture the natural crystal formula is very labor intensive.

He Was Skeptical

Although he was skeptical about the things this lady told him about this formula, he decided he had nothing to lose by producing it. That turned out to be a very good decision! The positive feedback about this incredible natural formula was amazing.

Thousands of users were excited about this product and sent him testimonials of how they used and loved it. They told him about spraying it on bruises, scrapes, stings, wounds, warts, sunburns and just about everything that needed quick healing; and they told him how it worked better than anything else they had ever tried.

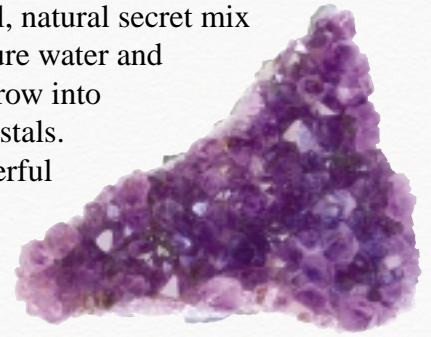

Why Does the Formula Work?

This original natural formula contains the first zincboracyl crystal, a natural compound created as only nature can do. The reason this formula — now in **DermaTox™** — is so popular and works so well is not entirely known, but we suspect it has to do with the way Nature bonds the minerals that merge together into the zincboracyl crystal during the manufacturing process.

Crystal Healing from Nature

How It Is Made

A special, natural secret mix is put into pure water and allowed to grow into beautiful crystals. These wonderful crystals are something that only Nature can produce. Once all the mix has combined into a new compound, the water is drawn out of the solution and the crystals are slowly and gently dried. When the crystals are dry, they are dissolved in pure, oxygenated water. The result is a beautiful pink solution!

DermaTox™ is a practical and useful product that belongs in every household! It provides effective, unique benefits that only **DermaTox™** can offer!

DermaTox™ in Action!

“ I was putting a roast into a pan containing very hot oil. When the roast touched the oil, everything seem to explode. The pain of the burn was terrible. The doctor told me I had a third degree burn and that I would definitely need skin grafting from my butt. I told him that the skin on my butt was the last good skin I had and he wasn't taking it! Instead, I faithfully used DermaTox™ on it morning and evening, sometimes more frequently. It took the pain away and started the wonderful healing process you can see in these photos. DermaTox™ is simply amazing! ”

— L.M., AZ

May 27: An extremely painful burn caused by exploding hot oil.

May 30: 3 days post-injury.

June 4: 8 days post-injury.

June 5: Skin peeling occurs.

June 18: Look at the healing just 3 weeks after suffering first- to third-degree burns!

Excited Users Write Letters!

Growth on hand is gone:

"I have used DermaTox™ for several years for different things. It removed a growth on my husband's hand. Also, I've been using it along with skin lotion on my face. And even though I'm 62 years old, my complexion feels just like velvet. We use it for many different things."

— P.H., AR

Bunion and neck pain improve:

"My husband and I have been using DermaTox™ for some time and really give it credit for helping me get rid of a bunion, plus it helps to get rid of pain that my husband had in his neck, caused by arthritis. We have given a bottle of it to one of his brothers and he is really sold on it too." — Mrs. E.C., IN

Skin is smoother:

"I like your products. I am noticing an improvement in my health and my skin is getting smoother and clearing up since using DermaTox™. I want to introduce your products to my friends. Please send me literature." — M.S., OH

Skin tags gone:

"I have a grandbaby who likes to 'touch' and she found some skin tags above my armpit. She did more than touch. They became so infected that they stuck out a half inch and were very painful. I could not even touch them. I sprayed them with DermaTox™ every 4-5 hours for 2 days. The tags fell off and the skin is once again smooth. I am so glad to be rid of them.

"My husband periodically has a bad neck. Nothing shows, but it pains him. I suggested

spraying it with DermaTox™. The next morning he told me how much better it felt.

"I have a sister who has some degenerated discs in her back. She was complaining about the discomfort and I suggested spraying them. The next day she called to say it worked. Now she will be using DermaTox™." — F.P., IL

Calcium deposits:

"I have had several calcium deposits on a couple parts of my body — 3 on my face. I have been using DermaTox™ 2x/day for the last 3 weeks and all the calcium deposits are shrinking and vanishing. I am now attacking a 'skin tag', and some varicose veins, with the DermaTox™."

— K.F., TX

Dermatitis on fingers:

"I had dermatitis on two fingers. One was so severe it was blistering and swelling. I had tried stuff from the doctor, to no avail. I purchased DermaTox™. I can't believe how fast it worked on my

fingers! DermaTox™ penetrates the skin, heals it and leaves it clean, no mess. My skin does not itch, blister, or have that 'lizard' dry look. My hands looked normal in 3 weeks! Thank you for DermaTox™." — E.R., CA

Finally pain free:

"I received DermaTox™ from a veterinarian friend. I am 83 and had not been free of pain for years...leg cramps, arthritis, etc. Then I started using DermaTox™ daily. I was in a wheelchair, then crutches, then just a cane! Your product is a marvel. I do free nursing and recommend it to everyone. Enclosed is my chiropractor's card, who is interested in carrying it." — B.D., VA

“ I use DermaTox™ for everything: nail fungus, hemorrhoids, mosquito bites, etc. It is everything you say it is and more. It is a terrific product...the best I have ever used! ”

— W.S., IL

Sunspot almost gone:

“I just looked in the mirror and a very large sunspot is almost gone from my face. I have used just one bottle of DermaTox™ on it. I used it every day under my makeup. This happened even after just spending a week skiing in Telluride.”

— Ms. C., FL

Leg sore and sore on face heal:

“Myron, a friend, had a sore on his leg that had given him much grief. I loaned him a pint of DermaTox™ and now he is almost completely healed. Dick, another friend, had some open sores on his face. I loaned him my DermaTox™ 4 oz. bottle and now he is completely healed. I recently came down with something that felt like the flu, but it wasn't. I had a soreness in my left inner ear that really hurt. Our family doctor gave me shots and pills but the ear problem persisted. I tried DermaTox™ by filling up the ear at least once daily and in 4 days the fire in my ear was completely gone. My first order of DermaTox™ was placed as soon as we knew my wife was going to have breast surgery. We sprayed and rubbed the incision area and my wife had the quickest recovery time on record! We love this stuff!” — C.G., TN

Uses to protect skin:

“Your DermaTox™ has been great for both my husband and me. I spray it on his face when he comes in out of the sun, since he has to be constantly monitored and treated for skin cancers. He starts to get red splotches and I spray on the DermaTox™, and the next day there is no sign of redness. I have rashes on and off, and if I catch it right away, the next day mine is almost gone and then is gone on day two. I use DermaTox™ on moles that are trying to start and it zaps them every time. We won't be without this wonderful product.”

— A.C., CA

Works like magic:

“My first order was for DermaTox™. I am delighted with the results. It works like magic. Within a week my skin problem was gone. I have sent your literature to a friend who is crippled with arthritis.” — M.M., MI

Uses it for psoriasis:

“I am using DermaTox™ for my psoriasis which I have had for 8 years. This product is the only thing that has brought improvement in such a short time.” — F.R., TN

Rash clears up:

“I ordered your DermaTox™ for a rash that I had. It did quite well, and I was pleased.

But my husband has skin cancer (basal cell) and two of these were recently removed surgically. We followed the doctor's instructions, carefully using the prescribed medication. They became infected nonetheless. As I was cleaning them in order to replace clean bandages, I felt led to spray them heavily with DermaTox™ that I had purchased for myself. Within a few days they were

healing and as of now they are almost completely healed. I spray them at least twice daily. Thank you so much for a terrific product, and praise the Lord!” — E.M., FL

Black and blue and swelling down:

“I am enclosing an order for DermaTox™. It sure is marvelous stuff. I use it for everything. When my children get hurt I soak their hurt area in DermaTox™ for 10-15 minutes. They don't turn black and blue and the swelling disappears quickly. DermaTox™ is the first thing I grab when someone gets hurt.” — L.M., DE

Hospital bed sores:

“My 89-year-old mother lives in a convalescent hospital. Some time ago she began developing sores on her face and scalp. The hospital staff tried several different medications to heal the sores, but nothing they did made much of a difference. Her physician prescribed cortisone ointment, which also didn’t help. They consulted a dermatologist, but he was unable to offer further assistance. At that point, they just gave up. The sore continued to get larger and got filled with pus. There was also a bad odor coming from them. I became extremely concerned for her. At that very time, I received a mailing from you about DermaTox™. Although I had never used your products, this sounded like just what was needed. I ordered DermaTox™, and got permission from the hospital administrator to spray it on my mother’s sores. Within a few days, there were signs of improvement. Within a month, the sores on her face were totally free of pus and the scabs had also come off. Two thirds of the sores on her scalp had also cleared. During the 6 weeks I have been applying DermaTox™ on my mother, the hospital staff has been observing the results. Yesterday the administrator stopped me in the hallway. I didn’t know what to expect, since most of the staff had been reluctant to comment until now. Then the administrator broke out into a big grin and said, ‘That stuff is working so well that the nurses want to get some for themselves. I also want to try some on someone else here.’ Of course, I gave her your address and literature! I thank you with all my heart for making such fine products, for obviously upholding such high standards of ethics, for caring for humanity, and for possibly saving my mother’s life.”

“I was given a sample of DermaTox™ by my daughter. The redness and soreness was gone on a growth on my toe after a few days of use. Also, a mole is flatter and smoother.”
— L.F., TX

— J.H., CA

Growing new hair:

“A miracle: we are growing hair on a 45-year-old man, and only used 2 bottles so far! He is on cloud nine and thinks the news might unsettle you, but it’s true, true, true! And even though I am now 84, I don’t like skin tags on my eyes (or any place else), and DermaTox™ is doing away with the one on each eye. That saves \$60. Thank you!” — M.B., CA

★ ★ ★ ★ ★

Painful corn relieved:

“Just a word for DermaTox™. I am a woman 77 years of age. I used one bottle of DermaTox™ on the bunions I have had since age 15. One had formed a very painful corn. I used everything to try to get it off. Well, you guessed it: DermaTox™ has it almost smooth.”

— J.G., NC

★ ★ ★ ★ ★

Foot sprain helped:

“I sprained my foot 3 weeks ago and have been in constant pain. I decided to spray my foot with DermaTox™ and I had no pain the very next day. Now I am going to work on my hair loss, by regularly spraying my head with DermaTox™. I will let you know later.” — J.T., CA

★ ★ ★ ★ ★

Multiple uses:

“I use DermaTox™ on my dog’s sore, red ears; it saved me a vet bill and it worked fast. My granddaughter came back from Florida with a very sore, red rash, and DermaTox™ cleared it up. Right now I’m using it on some cysts on my leg, and in 6-8 months they’re about half the size they were. My daughter got a bad burn while cooking, so she used DermaTox™ and the next day there was no blister and no burn. She couldn’t believe it!”

— F.S., MN
