

# short & Suite with my memories

## **\*When your CHILD has a story to tell\***

I was trying so hard to think of what would be the perfect lesson for the END of our \*March Into MMS\* - and I thought long and hard about it. I finally decided to finish up with a project instead of a lesson. And, to make it one of my ALL TIME FAVORITE projects that \*I\* have ever done with my MMS software. It was an easy pick for sure. Telling my CHILD'S story was \*the\* best project I have ever done!

So, I will share a thought... an idea with you today as we finish up! The process of scrapbooking is truly to preserve your family's story for future generations, those that will come after you. But while you are busy doing that, don't forget the "little" moments that happen on regular days, those that are here and then often, quickly forgotten. Today, I'll share a little story that started 10 years ago when my youngest daughter was just in Kindergarten. Years later, when my Mom found this little treasure - it had been long forgotten... but now - with a little help from our imagination, some adorable clip-art and embellishment sets... and my MMS, her sweet little story will never be forgotten again! So, take time to think about the projects that may never have a photograph in them. LISTEN to your children - dream their dreams and hold their hands as they stretch their imagination. Spelling is not important, the MEMORY you create however, will last a lifetime.

## **\*Coming up on the "March Into MMS"**

During the month of March, I have SO enjoyed bringing you a LOT of lessons, tips, tricks, and techniques to help you get the most out of your My Memories Suite software! I have enjoyed this journey tremendously and cannot \*tell\* you how special each and every note of encouragement and thanks that I received meant to me as we trudged along! Thank you for going along on this fun little \*March\* - you can give your Scrappy Little Marching boots a rest now!!

.....and don't forget to make memory today !

# \*Tell your CHILD'S Story\*

This "lesson" doesn't have much new technique to it, so the PDF will truly be \*Short & Suite\*. It's a simple project, but let me tell you - it is truly one of my favorites! When my Mom gave this to my daughter - it was a treasure she will keep forever.

- Search for graphics or clip art online, or find some great embellishments to help tell your child's story (or a story that YOU tell about them or TO them)

- Make sure to add a dedication page (this can easily be done like was demonstrated in the \*Journaling Mats\* lesson)

- KEEP their incorrect spellings! KEEP their incorrect grammar, that will make it all the more precious!
- If your child is able to WRITE the story, all the better, make sure you scan it (like in yesterday's lesson) and include at the back of the book! (that is how this project started - my Mom found this story my daughter - now 15 - wrote when she was in Kindergarten) You should have seen her face when my Mom gave her this precious little book as a Christmas gift almost 10 years later!

The \*AMAZING\* graphics used in the design of this PDF are from the "Love Shack" kit by the incredibly talented designers @ TheEttes! Shop them by name in the MMS Design Shop!
