70469 Stuttgart (Feuerbach)

Info: [h.ritter@padma-institut.de](mailto:h.ritter@padma-institut.de)

Tel.: +49 (0) 711 812 956

*"This is the course with the highest spiritual level I've ever been to. My reading with Aliyah was unbelievable. She says everything with an accuracy and fastness that I couldn't believe that in less than 50 minutes. I'll get such a lot of insight and information about my life. It was like I met God himself. She could even let me see more clearly things about myself than years of therapy. Meanwhile she gave me the solutions, the tools to work, so that I can take full responsibility for my happiness in my life".*

- Thérèse, (51), Belgium

*To meet Aliyah felt like a deep and honest meeting with myself. She helps me to see the truth about myself beyond all illusions. She is, in my experience, a very pure channel... It has been a true turning point in my life to have met Aliyah; a powerful awakening takes place, if one dares, to become free from all illusions one has lived in and that have been a hindrance to live a complete life in love to oneself and to others.*

- Maria Rosenlind, medium and spiritual teacher, Sweden

**Aliyah also gives readings 15-16 Feb. in Stuttgart**

Aliyah has an indescribable gift that has to be experienced. She sees your blocks and karmic patterns that cause the problems in your life.

There are reasons and therefore also solutions to our problems. Aliyah shares with you how you can get flow and harmony on all levels of your life. You can also put general or personal questions. She often gives detailed and clear answers. She can help you to see what hinders you to get what you want in your life: job, health, partner, peace, union with the divine etc.

Aliyah says that the gift and state she has got is something we all carry within ourselves, it is a natural part of our higher Self. Her workshop can help you to deepen your contact with your higher Self and makes it easier to get peace, joy and gratitude in your daily life.

Aliyah's individual readings are very popular. Before the course she will give readings in Stuttgart, 15-16 February. It is possible to get an individual reading even if you do not attend her workshop.
