

3<sup>rd</sup> International Conference on  
New Dimensions in Bridges,  
Flyovers, Overpasses & Elevated Structures  
9 – 10 April 2003, Malaysia

---

Table of Contents

Message

- Conference Advisor, George Baker
- BCSEA, Derek Tordoff

Table of Contents

Guest-of-Honour Paper

Bridge construction in Malaysia – new dimensions for the new millennium  
**Ismail Mohamed Taib**

Keynote Papers

Trends in the development of long span bridges in the Asian and Australasian Region  
**C R Alimchandani\***

New San Francisco Oakland Bay Bridge – overview of self-anchored suspension bridge design  
**G Baker\* and Marwan Nader**

Structural health monitoring: a perspective from system identification  
**C G Koh\***

Service stage behaviour of composite bridges  
**F Mola\* and F Giussani**

Aesthetics and technologies for urban bridges  
**M Tandon\***

Segmental construction for Kuala Lumpur's light rail  
**M Tandon\***

From through section to shell structure design of flyovers for rail loading  
**P Van Bogaert\***

Technical Papers

Elegant bridge structure in Putrajaya Complex  
**Abdul Rashid b Maidin\* and A Ghoshal**

Railway bridges-form and function for high speed meter gauge double track railway project  
**Affendi Abdullah, S Jagdev\* and A Krishan**

Provision of reinforced earth wall behind the bridge abutment – an economic solution  
**Affendi Abdullah\* and A Sengupta**

Standardisation of highway live loading for long span bridges  
**S Ahmad\***

Generating bridge models using normalized parametric geometric extrusions  
**N Anwar\***

Technical Papers

Structural analysis of composite bridges with truss webs  
**S Bullo, F Giussani, F Mola\* and A Palermo**

An improved detail category for trapezoidal stiffener to deckplate welds, based on full scale stress data and fatigue tests  
**W de Corte\***

Construction of prestressed concrete continuous box girder railway bridges in Jammu and Kashmir  
**R Dhankhar\*, R Chopra and B D Garg**

Dalai Bridge well foundation—a case study  
**R K Dhiman\***

Studies on bond capacity of grid–system for UCCF cables and its model for design  
**R Djamaluddin\*, T Ohta, B Abdullah, S T Seo and K Harada**

Flexural behaviour of concrete members with external FRP tendons  
**B El–Ariss\***

Effects of severe hot–dry weather on the flexural behaviour of beams with external FRP tendons  
**B El–Ariss\***

Effects of shear deformations on flexural behaviour of prestressed concrete members  
**B El–Ariss\***

Some features of bridge construction in Hungary  
**Gy Farkas, J Farkas\* and A Lovas**

Dynamic performance of an historic cable–stayed bridge: computation and tests  
**C Gentile\* and A Gennari–Santori**

Long term torsional effects in composite steel – concrete curved bridge beams  
**F Giussani, F Mola and A Palmero\***

The use of provisional props in design practice of composite steel–concrete simply Supported beams  
**F Giussani, F Mola\* and A Palmero**

Experimental and probabilistic assessment of tension forces in cable–stayed bridges  
**R Gomez\*, J A Escobar, D Murai–Vila, R Sanchez, D Munoz, H Huerta and R Vera**

Innovative design and construction of bridges of Jurl in high seismic zone of north India  
**V Gupta\***

High performance concrete joints for industrial bridge concepts  
**P Harryson\***

Wind–nose influence on aeroelastic stability at cable–stayed bridges  
**B Herbudiman\***

MEFLAP. An interactive computer software for finite element analysis of voided slab bridge decks  
**S Hernández\*, J M Diaz, J M Reinoso, A N Fontán and L E Romera**

Study on the crack distinctive feature and the method of damage evaluation for RC beam girders  
**L L Li\* and S H He**

Moveable bridges – selection & design  
**T C Lim\*, A Ghosh and A Sengupta**

Bridge construction adjacent to existing railway track—a case study  
**A Lingammuthu\*, S Jagdev and S R A Badarruddin**

Computer modelling of beam–and–slab bridge deck  
**Medhat K Abdullah\***

#### Technical Papers

Performance evaluation of JKR prestressed T–beam  
**Mohd Hanim Osman, A K Mirasa, Wahid Omar\* and Abul Sani Abdul Hadi**

A computer programme for the analysis of box–girder bridges by the finite strip method  
**S I Nassif\*, A G El–Attar and A A Youssef**

Probabilistic free vibration analysis of short span bridges  
**N N Nuallain, B Basu\* and A O'Connor**

Study on ultimate strength of compression plates made of high strength steel  
**N Ochi\* and T Kitada**

Bridge across Rijeka Dubrovacka  
**J Radic, Z Savor, G Hrelja and G Puz\***

Domovinski Bridge in Zagreb  
**J Radic\*, D Tepes, R Veverka, V Prpic and G Celikovic**

Preliminary design of standard prestressed concrete I–girders using AASHTO LRFD specifications  
**K N Rahal\* and S Fereig**

Use of standard precast T–beam girder for variable design criteria  
**S Ray and B Shakor\***

Physical and mechanical performance of a prestressed carbon fibre reinforced plastic rod  
**S T Seo\*, T Ohta, B Abdullah, R Djamaluddin and K Harada**

Construction of railway bridges by slip form technique on Udhampur–Katra section in connection with Udhampur–Srinagar–Baramula rail link project  
**P Sharma, R Chopra\* and I J Verma**

Determination of optimal sensor location for system identification based on maximum likelihood approach

***S B Shin\*, S J Kwon, Y H Park and J S Park***

The elevated guideway of LRT, Kuala Lumpur

***K Sittampalam and C O Chow\****

The pulse velocity test on highway bridge girders: Quest for uniformity – a case study

***M A Tahir and R A Goraya\****

Overpasses on the Bregana–Zagreb–Dubrovnik motorway – design and construction

***D Tkalcić\*, A Krecak and D Banic***

Short span structures on the Bregana–Zagreb–Dubrovnik motorway route

***D Tkalcić, P Sesar and A Krecak\****

Load testing of bridge No. 13 (Dudhar Bridge) on Udampur–Katra new rail link project

***R Tripathi\*, B Prakash and N Aggarwal***

Multi-dimensional value of Zhaozhou Bridge and esthetics pattern of modern bridge architecture

***Z M Wang\* and L Liu***

Flyover construction at Khilgaon rail road intersection in Dhaka City

***M M Younus Ali, M M Sazzard and Md Kamruzzaman\****

Additional Paper

Recent outstanding prestressed concrete bridges in India

***S A Reddi***
