

5<sup>th</sup> International Conference on **DEEP FOUNDATION PRACTICE**

incorporating **PILETALK 2001**

& Pre-Conference Workshop on **IT in Geo-Engineering**

4 – 6 April 2001, Singapore

**CONTENTS**

**KEYNOTE PAPERS**

Dynamic testing of piles: Some recent developments  
*Y K Chow, K K Phoon, W F Chow and S L Lee*

Deep compaction of granular soils – an overview  
*K R Massarsch*

Load Testing of high capacity piles – what have we learned?  
*J O Osterberg*

**SPECIAL SESSION PAPERS**

Grouted driven model pile tests  
*H A Joer*

New thinking in sheetpile driving  
*G Menz*

Vibro-impact driving  
*T F Lim*

**TECHNICAL PAPERS**

Testing of piles in laboratory by Osterberg cell  
*F M Abdrabbo, R M El-Hansy and T M Abdel-Aziz*

Experimental study of skin friction of bored piles socketed into cemented sand  
*F M Abdrabbo and K E Gaaver*

Vibro-replacement stone columns  
*F M Abdrabbo and H M Abouseeda*

Testing of piles in laboratory using O-Cell  
*F M Abdrabbo, H M Abou-Seeda and A Z El-Wakil*

Capacity of mini-pile in erratic submerged sand  
*A D Adi*

Behaviour of drilled shafts in sandy soils of United Arab Emirates  
*A Al-Homoud, T Fouad and A Mukhtar*

The Berthing construction with concrete caisson in Belde Container Port in Turkey  
*M Bilgin and R Baki*

Empirical pile design based on CPT data: an explanation for the reduction of unit base resistance between CPTs and piles  
*X Borghi, D J White, M D Bolton and S Springman*

Numerical model for jet-grouting pile – soil system  
*J Bzówka*

Results of static load tests on instrumented driven piles  
*P Carruba, P Colonna, A Falcon and M Pietrangeli*

The influence of a slope upon the lateral resistance of a deep foundation  
*K S Chae, K Ugai and A Wakai*

The behaviour of bored piles in matra clays  
*C Cherubini and M Lupo*

Bearing capacity of gravel pile in the soft ground  
*B S Chun, Y H Yeoh and B Y Kim*

Comparison of bearing capacities derived from deep foundations field loaded in a tropical porous clay of Brasil  
*R P Cunha and J H F Pereira*

Bearing capacity of a single pile embedded in a sand bed intervened by a thin layer of clay beneath the pile tip  
*R M El-Hansy*

Using micropiles for restoration and strengthening Egyptian archaeological buildings  
*E A A El-Kasaby*

Press-in Piling: The installation of instrumented steel tubular piles with and without driving shoes  
*T C R Finlay, D J White, M D Bolton and T Nagayama*

Bearing capacity and settlement of piles in sand overlying compressible soil  
*A H Hammam, M M Sherif and A F Abouljed*

Precast concrete piles on Karstic limestone  
*K K Han*

A review of bored pile design and performance at Galle Road, Colombo  
*C E Ho*

Soil-pile interaction in slopes evaluated by elasto-plastic FEM  
*W F Huang, K Ugai, F Cai and Y Zheng*

Prediction of load bearing capacity of piles from rapid load pile testing data using neural network  
*A A Javadi, M Brown and A F L Hyde*

Development and performance evaluation of wing piles  
*S Kanai, T Tsuchiya, F Ohsugi and K Yoshida*

P-multipliers for predicting of lateral behaviour of group piles  
*B T Kim, Y S Kim and G L Yoon*

Experimental study of pile-raft foundations under static loading  
*M Kimura, M Hasegawa, T Boonyatee and T Adachi*

The performance of concrete casting at the bottom of bored piles using drilling fluid  
*F Kuwabara, K Ishiguro, H Nemoto, M Kawamura and M Tamura*

Recent findings on negative skin friction on piles and in pile groups in consolidating ground  
*C J Lee, M D Bolton and A Al-Tabbaa*

Design of driven pile foundations subjected to NSF : A case study  
*K S Li, J Lam and D Chan*

Driven piles founded on rock  
*K S Li and J Lam*

3D elasto-plastic FE analysis of piles subjected simultaneously to horizontal soil displacements and lateral forces at the pile head  
*J A Martinez-Mesen, K Ugai, F Cai and A Wakai*

Experimental study for lateral subgrade reaction on pile in saturated sand with controlled effective stress  
*S Namba, T Xu, H Yamamoto and K Tominaga*

Three-dimensional non-linear finite element analysis of horizontal behaviour of pile groups in cohesive soil  
*I Ono, K Yamada, Y Kikuta, S Matsuura and K Okada*

A simplified analytical method for deformation analysis of piled raft foundations with batter piles  
*K Pastsakorn, T Matsumoto, T Takahara and H Todo*

Taegu World Cup 2002 Football Stadium roof towers and foundations  
*D Puller and R McCrae*

Effects of support conditions on lateral deformation of column piles  
*A Rahai and O Zarkani*

Analysis of tunnel openings in soft geotechnical formations  
*M S Ranadive and S K Parikh*

Interaction of flat and pile foundations wheeled by a horizontal planer in a difficult foundation conditions  
*P Št pánek, V Horák and B Zmek*

Behaviour and performance of deep barrette piles in Bangkok subsoils  
*W Teeparaksa*

Record load test on large barrette and its performance in the layered soils of Bangkok  
*N Thasnanipan, A W Maung, Z Z Aye and P Tanseng*

Centrifuge modeling of piled raft foundations subjected to horizontal loads  
*T Watanabe, H Fukuyama, K Horikoshi and T Matsumoto*

Application of electrical resistivity survey to foundation works  
*J Wei, Y S Heng, S C Ng, C K Loh and L J Ang*

Case study of a deep raft foundation in expansive clay  
*A Wojtasik and M Tro*

Performance of various piled-embankment systems  
*S C Wong and H G Poulos*

A general load-settlement analysis of pile groups  
*K J Xu and H G Poulos*

Long-term behaviour of tall building on raft foundation constructed by top-down method  
*T Yamada, K Yamashita, M Kakurai & H Tsukatani*

Analysis and design of temporary retaining wall for basement construction of Parkview Square, Singapore  
*N S Yet*

Assessment of pile capacity from offshore pile monitoring  
*D Y Yu, M H Zulkawi and F M Mustapa*

## **WORKSHOP ON INFORMATION TECHNOLOGY IN GEO-ENGINEERING**

Geotechnical engineering in the information technology age  
*A Massarsch and K R Massarsch*

Pile testing – reflections on future developments [abstract only]  
*J O Osterberg*

IT in geotechnical information retrieval and knowledge dissemination  
*B Rydell, A Salomonson and L Lindgren*

## **ADDITIONAL PAPERS**

PDA testing and effective quality assurance  
*J P Seidel*

Evaluation of static behaviour of H Steel piles driven in Trememb-formation by dynamic increasing energy test  
*I Adolfo de Avila and N Aoki*

Managing foundation projects in the global village  
*J P Seidel*
