

KEYNOTE PAPERS

An International Conference on

Geo–Environmental Engineering

9 – 10 December 2003, Singapore

TABLE OF CONTENTS

Messagei

Profile of Support Organisationsv

- The Canadian Geotechnical Society
- Table of Contentsi

Keynote Papers

Heat exchanger piles: in–situ testing and constitutive modelling

L. Laloui*, L. Vulliet, C. Cekerevac and M. Moreni

Investigation and management of contaminated sites

L.Y. Li*

Use and performance of bentonite in geosynthetic clay liners

C. Wijeyesekera*

Technical Papers

Environmental impacts of engineering and quarrying works, Eastern Region, Saudi Arabia

O. Abdullatif* and M. Hariri

Solid waste landfill system in city of Adapazari, Turkey

H. Arman* and R. Ileri

Analysis of diffusion of volatile organic compounds through geomembrane–compacted Clay composite liners

T. Chalermyanont*

Laboratory study on re–utilization of incineration fly ash to stabilize Singapore marine clay

S.H. Chew*, M. Rui and J. VM Kuma

Utilization of silica fume and tannery sludge in problematic soils

P. Dayakar*, V. K. Stalin, K.V.B. Raju and K. Pachayappan

KEYNOTE PAPERS

TASC: a new practical computer tool to prevent soil compaction damage in arable farming

E. Diserens*, E. Spiess and G. Steinmann

In-situ determination of the fracture point of an agricultural soil using the plate penetration test, comparison with the oedometer method and validation

E. Diserens* and G. Steinmann

Engineering In-situ Bioremediation of CAHs

M. Dyer* and E. Marnette

Groundwater development and land subsidence in Hanoi, risks and control

P. H. Giao*

Educating geoenvironmental engineers for Asia

U. Glawe*, K. Czurda, M. Alamgir, H. Brandl, M. Moser and P. Asavadorndeja

Geotechnical properties of sewage sludge treated by cement and copper slag

M. H. Goi, J. Chu*, and T.T. Lim

Applying geoinformatics in environmental management and land-use planning for the wetland – case study of Cangio – Hochiminh City– South Vietnam

Huynh thi Minh Hang*, Nguyen Hoang Anh, Lam Dao Nguyen and Nguyen Thanh Minh

Evaluation of the flow rate per unit width of geosynthetic drainage materials and hydraulic efficiency in the secondary drainage layer of the Sa Kaeo landfill liner, Thailand

D. P. Jaisi, U. Glawe*, K. Czurda, K. E. Roehl and M. Alamgir

Determination of correlation parameters of CFG pile composite foundation in collapsible loess

H.Y. Jiang*, J.B. Lu and T.D. Miao

Influence of tannery effluent on engineering characteristics of fine grained soil

S. Kaliappan and S.M. Mohan*

Cementitious stabilisation of Scoria for pavement construction

K.Y. Lee* and J. Kodikara

Stabilisation of petroleum-contaminated clay with binder

KEYNOTE PAPERS

W.L. Loke, J Chu*, T.T. Lim and T.K. Teoh

Migration of a saline solution through natural marine clay: comparison between in situ tests and numerical modelling

F. Maggiò*, A. Pellegrino and G. Urciuoli

Contaminant migration & environmental considerations in liner system design and assessment

M. McLoughlin* and P. Ludgate

Laboratory investigation of nutrient transport and microbial stimulation in residual soil by electrokinetics

A.J.P.P. Mergulhão*, U.N. da Rocha, D.M..Pessoa and J.T. Araruna Jr.,

Full scale testing on Malaysia soft soil at recess

Mohd Idrus Hj Mohd Masirin*, C. Wijeyeskera, Hj Ismail Bakar, Azizan Abdul Aziz,

Ahmad Kamal Ariffin Abdul Rahim and Adnan Zainorabidin

Assessment of sand–clay mixtures for use in landfill liners

Y.E.A. Mohamedzein*, A.A. Al–Rawas, M.Y. Al–Aghbari

The geo–environment and waste facility development

H. Singh and Bujang B.K. Huat*

A case study on soil contamination using GIS approach

V. K. Stalin*, E. Velappan and R. Jayanthi Nalina

Landslide hazard and risk assessment using fuzzy sets

G. Venkatachalam*, G.R. Dogadoudar and S.S. Quadri

The mobility of Tributyltin in dredged sediments

L.T. Wong*, H.L. Tan, D. Lockington, W. Clarke and R. Day

An analysis of underground pollution around a chemical factory

W.M. Ye*, R.X. Wang, Y.Q. Tang and Y. Huang

Assessments of design strength of geosynthetics for reinforcement by reduction factors

H.Y. Jeon*

Parameters to be effected on weatherability of woven geotextiles for soft soil reinforcement

H.Y. Jeon* and S.W. Byun

KEYNOTE PAPERS

Index of Authors

Secretariat Office

CI-PREMIER PTE LTD

150 Orchard Road #07-14, Orchard Plaza, Singapore 238841

Tel: (065) 67332922 Fax: (065) 62353530 E-Mail: cipremie@singnet.com.sg

REFERENCED BY ISBN

PROCEEDINGS

OF THE

INTERNATIONAL CONFERENCE

ON

GEO-ENVIRONMENTAL

ENGINEERING

9 – 10 December 2003, Singapore

Editors

S.H. Chew

, The National University of Singapore, Singapore

M.I.M. Pinto

, Univeristy of Coimbra, Portugal

I. Jefferson

KEYNOTE PAPERS

, The Nottingham Trent University, United Kingdom

Haji Faisal Ali

, University of Malaya, Malaysia

With the support of

:

- Dept. of Civil Engineering, FCTUC, Universidade de Coimbra, Portugal
- Architecture, Civil and Environmental Engineering School of the Swiss Federal Institute of Technology, EPFL Lausanne, Switzerland
- The Canadian Geotechnical Society

Organised by:

- CI–Premier Conference Organisation, Singapore

An International Conference on

Geo-Environmental Engineering

9 – 10 December 2003, Singapore

KEYNOTE PAPERS

CONFERENCE ADVISORY COMMITTEE

- Professor Emeritus Lee Seng Lip, National University of Singapore (Chairman)
- A S Al-Homoud, American University of Sharjah, UAE
- A S Balasubramaniam, Griffiths University, Australia
- H Brandl, Technical University of Wien, Austria
- U Glawe, Asian Institute of Technology, Thailand
- B B K Huat, Universiti Putra Malaysia
- L Laloui, Swiss Federal Institute of Technology, Switzerland
- J Laue, Swiss Federal Institute of Technology, Switzerland
- L Li, University of British Columbia, Canada
- M de Lurdes Lopes, University of Oporto, Portugal
- C Qunital, University of Merida, Mexico
- R Rama Rao, Andhra University, India
- D C Wijeyesekera, University of East London, United Kingdom

CONFERENCE COMMITTEE

Conference Chairmen:

- Haji Faisal Ali, University of Malaya, Malaysia
 - M. Isabel M. Pinto, Universidade de Coimbra, Portugal
 - Ian Jefferson, Nottingham Trent University, United Kingdom
 - S H Chew, National University of Singapore, Singapore

Members:

- T Cheema, Sultan Qaboos University, Oman
- P H Giao, Asian Institute of Technology, Thailand

Director:

- Er John S Y Tan, CI-Premier Pte Ltd, Singapore

Manager:

- Ms Josephine Gan, CI-Premier Pte Ltd, Singapore

Secretary:

- Ms Peggy Teo, CONLOG

KEYNOTE PAPERS

An International Conference on

Theme: Geotechnical Contribution Towards a Sustainable Environment

9 – 10 December 2003

SINGAPORE

With the support of

:

- Dept of Civil Engineering, FCTUC, Universidade de Coimbra, Portugal
- Architecture, Civil and Environmental Engineering School of the
Swiss Federal Institute of Technology, EPFL Lausanne, Switzerland

KEYNOTE PAPERS

- The Canadian Geotechnical Society

Organised by:

- CI–Premier Conference Organisation, Singapore
