

28th Conference on
28th Conference on
Our World in Concrete & Structures
28 – 29 August 2003, Singapore
Volume XXII (2003) : With ISBN reference

Table of Contents

- ◆ The Japan Concrete Institute
- ◆ Curriculum Vitae of Shoji Ikeda
- ◆ Profile of Co-sponsors
- ◆ Table of Contents

Paper No

. List of Papers/Authors

Conference Lecture 2003

1006 Seismic performance of concrete piers under severe earthquake

S. Ikeda, K. Hayashi and Y. Adachi*

Keynote Papers

- Use of optical fibre technology to monitor the performance of concrete and concrete structures

L. F. Boswell and B. McKinley*

- The use of R.C. plates for the rebuilding of the Runway Head 36R of

Linate International Airport in Milan

F. Giussani, F. Mola* and F. Pigni

1009 Non-destructive testing on concrete

*Z.J. Li**

1010 New developments in CAC based concretes

*K.L. Scrivener**

1011 Durability of FRP Systems under tropical climate

*K.H. Tan**

28th Conference on

1012 International technical standards in the field of concrete

*Y. Tsuji**

1013 Precast, prestressed concrete technology – State of the Art

A. A. Yee

*

Special Session Papers

- A study on environmental conditions affecting long-term deterioration of concrete structures in Japan

H.Hamada, M.Ishikawa, Y. Kato, T. Maruya, S. Miyazato, H. Kasai,*

T. Habuchi and T. Yamaguchi

Paper No

. List of Papers/Authors

Special Session Papers

- Recent issues of research & technology development on expansive concrete for high quality structures in Japan

T. Kishi* E. Sakai, T. Noguchi and Y.Tsuji

1016 Design, construction and recent applications of porous concrete in Japan

M. Tamai, H. Mizuguchi, S. Hatanaka, H. Katahira, T. Nakazawa

K. Yanagibashi and M. Kunieda*

1017 Application technology of ultra high strength fibre reinforced concrete for a

M0m span 'Sakata Mirai Footbridge'

Y. Tanaka, H. Musya, Y. Shimoyama and T. Kobayashi*

1018 Recent activities of Japan Concrete Institute

Y. Tsuji*

1019 Latest achievement in technology and research of retrofitting concrete structures

T. Ueda, Z. Wu and T. Kanakubo*

1020 Materials problem solving, using special cements

R. F. Viles, N. Davison, R. W. Lambe, I. Madhav, A. Yin and M. Robertson*

28th Conference on

1021 Geopolymerisation of fly ash, kaolinite and albite

Hua Xu and J. S. J. van Deventer*

1022 Microstructure and properties of slag/metakaolinite geopolymeric materials

C.K. Yip, G.C. Lukey and J.S.J. van Deventer*

Technical Papers

1023 Effect of reinforcement ratio and shear span on shear strength of high strength concrete

S. Ahmad and A. Elahi*

1024 Simplified analysis of octagonal slabs

B. Ahmed and S.R. Chowdhury*

1025 Estimation of serviceability deflection of edge supported slabs:

Part 1– modelling slab response

B. Ahmed and S.R. Chowdhury*

1026 Estimation of serviceability deflection of edge supported slabs:

Part 2– coefficient method

B. Ahmed and S. R. Chowdhury*

1027 Durability of concrete exposed to hot conditions

H. Al-Khaiat and M.N. Haque*

1028 A diagnostic assessment of cracking of plinth beams in a storage building

A.K. Azad, H.I. Al-Abdul Wahhab and O.S.B. Al-Amoudi*

1029 Bond stress–slip relationships of glass–fibre–reinforced polymer (GFRP) bars embedded in polystyrene aggregate concrete (PAC)

R. V. Balendran, W.C. Tang, H.Y. Leung and A. Nadeem*

1030 Effect of cooling methods on residual compressive strength of high performance concrete (HPC) subjected to elevated temperatures

R. V. Balendran, W.C. Tang, A. Nadeem, P.R. Kamineni and T. Maqsood*

Paper No

. List of Papers/Authors

Technical Papers

1031 Basalte fibre reinforced high strength concrete

*V.N. Chanh and V.T. Mien**

1032 Fabrication lightweight concrete using hollow glass aggregate

V.N. Chanh, P.D. Sang and T.T.N. Huong*

1033 Instability of slender concrete deep beam–panels – comparison of test results with existing design aids

M. Chemrouk and F.K. Kong*

1034 Effect of chemical admixtures on rheological parameters of fresh lightweight aggregate concrete

K.S. Chia and M.H. Zhang*

1035 The recent research and application of high performance concrete to railway bridge construction in China

G.L. Dai and X.G. Yue*

1036 The use of UHPFRC to reinforce a silo subjected to high temperature and abrasion

A. Durukal, F Lagier and J.P. Droumenq*

1037 Experimental study on behaviour of T–beam natural aggregate concrete and recycled aggregate concrete

*A. Fachruddin and D.R. Munaf**

1038 The supply of precast concrete facade for housing construction in Hong Kong

*S.W. Fu and S.W. Poon**

1039 Determination of adiabatic temperature rise in concrete capabilities and performance of a new system

A.D. Galang, C.T. Tam, S.L. Mak and D.W.S. Ho*

1040 Behaviour and effectiveness of GFRP laminated beams

S. Gowrisankar, D. Aruldas and G. Kumaran*

28th Conference on

1041 The case for and ramifications of blending reactive magnesia with Portland Cement

*A.J.W. Harrison**

1042 Steel corrosion at bending cracks in ductile fiber reinforced cementitious composites

Y. Hiraishi, T. Honma, M. Hakoyama and S. Miyazato*

1043 Prediction of failure load of reinforced high strength concrete beams by nonlinear finite element analysis

O.E. Hu, S. Teng, P. Irawan and H.K. Cheong*

1044. 3-D FEM compression analysis on confining effect inside square RC columns with different sizes

M. Ito, E. Mizuno and S. Hatanaka*

1045 Development of self-compacting concrete corresponding to the specified strength for CFT

Y. Koshiro, T. Oike, T. Kawaguchi, T. Koyama and Y. Matsufuji*

1046 Variable crack-angle softened-truss model for reinforced concrete elements in shear

J.S. Kuang and P.C. Cheng*

Paper No

. List of Papers/Authors

Technical Papers

1047 Fatigue behaviour of reinforced concrete beams using fiber BRAGG grating sensors

K.H. Kwak, S.J. Cho, H.S. Yu and K.S. Kim*

1048 RC slab analysis using 3-D concrete model

Y. Liu, S. Teng and C.K. Soh*

1049 Long-term effects of silica fume on high-strength concrete columns

M. Mazloom and A.A. Ramezani-pour*

1050 Degradation of bond and compressive strength of cement mortar at elevated temperature

Md. M. Sazzad, T.U. Ahmed, M.M. Younus Ali, K. Sultana and A. Shamim*

28th Conference on

1051 Properties of concrete containing blast furnace slag with low fineness

S. Miyazawa, Y. Ohya, A. Hiroshima and K. Kubota*

1052 Performance enhancement in concrete composites using local materials

K.S.R. Mohan, P. Jayabalan and A. Rajaraman*

1053 Centrally prestressed unreinforced concrete columns and piles

D.V. Reddy and R. Periyaiyah*

1054 Chemistry and performance of different lignosulfonates

*K. Reknes**

1055 The effects of CFRP sheets on ductility of reinforced concrete T-beams

A. Saber and J. Owens*

1056 Strength development of unhydrated cement separated from fresh cement paste

R. Sakurada, K. Maruyama and Y. Kawazoe*

1057 Predicting the compressive strength of concrete

*M.K Sam**

1058 Modeling the early age behaviour of self-compacting concrete using coal ash
in Vietnam

M.K. Sam, Truong Thi Hong Thuy and Nguyen Thien Rue*

1059 Some properties of concrete mixed with effective microorganisms and the on-site
investigation of the completed structures

N. Sato, T. Higa, M. Shoya and S. Sugita*

1060 Super-Pozz[®]: The new generation pozzolan for superior concrete

*E.Y. Seedat**

1061 Flexural strengthening of reinforced concrete beam with ferrocement

S.P. Shang, L.O. Zeng and H. Peng*

1062 Performance-based object-oriented design of subsystems using component
objects for better performance

K. Sivasubramanian, C. Natarajan and A. Rajaraman*

28th Conference on

1063 Macau Tower – A towering success in concrete

M. Spencer, D. Turkington and C. Richardson*

1064 Structural health monitoring paradigm for concrete structures

S. Sumitro, K. Hida and T. Le Diouron*

Paper No

. List of Papers/Authors

Technical Papers

1065 Concrete and project durability

*G.R. Summers**

1066 Suitability of locally available fly ash for making concrete

M.A. Tahir and R.A. Goraya*

1067 Steel fiber reinforced concrete beams subjected to combined bending and torsion – skew bending approach

D. Tensing and L.S. Jayagopal*

1068 Studies on reduction of chloride in concrete using an admixture

S. Thilagavathi, K. Manoharan and K. Jayapandi Lakshmi*

1069 Design of offshore concrete structures

*K. Waagaard**

1070 Achieving a durable concrete surface by using a Zemdriain[®] controlled permeability formwork (CPF) liner to overcome process problems

*D. Wilson**

1071 An accelerated leaching test for cement mortar

S.F. Wong, P.C. Chui, J.H. Cahyadi and C.P. Goh*

1072 Location of damage in reinforced concrete structures due to corrosion

J. Wu and S.X. Wu*

1073 Light motor alternative construction system for emergency housing

F.S. Yeomans R. and R. Reynoso Miranda*

28th Conference on

1074 Experimental study for developing seismic confined brick masonry walls

*K. Yoshimura**, *K. Kikuchi*, *M. Kuroki*, *H. Nonaka*, *K.T. Kim*, *R. Wangdi*

and *A. Oshikata*

1075 Effects of support distance for steel beams on vibration behaviour of top floor

in a double-floor system

K. Yoshimura, *K. Kikuchi*, *M. Kuroki**, *I. Iida*, *K. Okita* and *A. Matsushita*

1076 Assessment of the effect of incorporating fibres on the compressive strength

of concrete

M.M. Younus Ali, *Md. M. Sazzad** and *S. M. Nizamud-Doulah*

1077 Construction stages for continuous composite beam crack control

*S. Bullo** and *R. di Marco*
