GEORGIA Lake Wheeler JULY TIME 84 clear Bass Stalker black/blue jig, hydrilla (submerged) 5-12' Partly Sunny 88 11 bass, Big Fish: 4.2
GEORGIA Lanier DECEMBER Most 54 ?? spyder grubs 5"/Assalt, spinnerbaits shallow cover shallow Scattered Clouds 50's 4 fish that weighed right at 15 pounds
GEORGIA Lanier DECEMBER Most 60'S 24 Jigging spoons and blade baits deep structure deep cold rain 30's average 8-10 bass per day
GEORGIA Lanier JANUARY PM 50 24 flex-it spoon deep water (general) 45ft Clear 50's caught 2 spots both non-keepers
GEORGIA Lanier JANUARY TIME 45 24 2" chart./chrome spoons deep structure 30-35 feet Clear 50's spotted bass right at 17" and chunky
GEORGIA Lanier MARCH Mid 53 ?? creepy crawlers and finnesse worms on 1/4 oz. jig heads, carolina rig docks 10 to 20 ft Clear 60's caught 10 spots average wt. 1 1/2 to 2 1/2 pds
GEORGIA sinclair DECEMBER AM 48 ?? pig & Jig/jigging spoon/carolina rigged worm deep structure 20'-25' cloudy AIR
GEORGIA WEST POINT JANUARY Most 40'S ?? spoon 1/2 to 3/4 oz trees 25-30 feet overcast 40's The upper end of the lake is "silty" right now so go south to fish

HAWAII Lake Wilson, Hawaii MARCH Mid 70'S 12 Fly Fishing, streamer flies.... yellow/gold, and silver shoreline (general) 0 to 2 feet Sunny 70's Peacock bass and largemouth bass are getting more active as the water temp. reaches 78 degrees. Peacocks like sun shine and hot water. Lots of action with fish in the one to two pound range. Even some 3 pounders. The big Tukes (peacock bass) in the 6 to 8 pound size are starting to pair up and look for nesting sites. The Red Devils are every where, and starting to get aggressive. That's a good sign the Tukes are also moving. I've seen schools of the big ones, 20 to 25 fish, crusing the shoreline. If the rains would ever stop so the water can clear up, we'll be able to spot the fish and have some really exciting action. You bass fishermen don't worry. peacock bass will hit just about any lure a largemouth will take.

HAWAII Stone-dam, kilauea stream, Kauai MARCH PM ?? 40 frog colored Skitter pop, frog colored wooden popper brush (submerged) 6 foot brush adjacent to deep water overcast 80's Mainly North side of pond Not biting anything except topwaters. Adjacent to deep water was best. Fished a narrow deep lake that gets shallower as you go upstream from the dam. Best bites were in timber adjacent to deep water.

Tried all types of lures. Not a bite on anything except poppers. Caught 3 bass. Lost a few and many missed/short strikes but all from small fish.
