

COMPUTER PERIPHERALS

MIDI ATX CASE

Reference:
DLC-MG760

Features:

Front-set USB+Audio ports make it easier to connect with outer equipment.

Superior zincification armor plate and deeply pressed molding technics adopted, ensure casing intensity sufficiently.

*Fabulous controllable front light, creating fantastic stage.
Special EMI Interface design, to avoid electromagnetic radlancy.*

Two-way Interactive heat dispersing design,ensure system heat dispersing persormance.

4 CD-ROM drive bay, 1 floppy drive bay, 6 hard diskdrive bay, provide sufficient space for the upgrading.

Equipped with P-4 power supply, keep system in stable working condition

Specification:

Case Size: 500X192X494mm
Carton Size: 555X255X590mm

MIDI ATX CASE

Reference:
DLC-MG416

Side plate:

For 3.06G CPU, because of its high power, the ventilating device forms a special air-flow for the CPU, and then makes it work at a safe condition.

LCD Function:

Temperature indicators for three key positions

Three time indicators: real date & time, alarm time, working time, and a controller for working time.

Two fan speed (RPM) controllers with intelligence. You can change the fan speed as per the temperature.

Working indicator of HDD & CD-ROM

LCD backlight (optional orange and blue backlights), and ON/OFF switch.

Specification:

*G" series(L x W x H)
490x192x445mm*

MIDI ATX CASE

Reference:

DLC-M95

Features:

*Available configuration parameter:
CD-ROM X 4, FDD X 2*

No angle, no hurt hands design, EMI anti-magnetism design.

Super space design compatible for various MB.

High quality electroplated Zinc steel sheet, strong and durable.

USB and audio ports on side panel.

Specification:

Case size: 490 x 192 x 445mm

Carton size: 475 x 230 x 535mm

MIDI ATX CASE

Reference:
DLC-MD 371

Drive Space:

3 x 5.25j±, 4 x 3.5j± (1 / 2xFDD, 2xHDD)
2 x USB Mic & Audio pins on face panel

Specification:

Case Size: 43.5x18x40.5cm
Carton Size: 47.5x22x45cm

MIDI ATX CASE

Reference:
DLC-MD368

Features:

*Worldwide patented structure design.
Rolling-edge and module-intensify design, ensure case intensity and no fingers-hurting, comply with security approval.
Patented screw free design for hard disk mounting, convenience for dismantling.
Front-set USB+Audio port makes it easier to connect with outer equipment.
High quality SECC steel adopted, enduring rust, anti-theft grommet added on the case.
Scientific system cooling design, ensure the computer in cool working condition.
Equipped with P-4 power supply with approval.
Compatible with All ATX, MICRO ATX motherboards.*

Specification:

Case Size: 435x180x405mm
Carton Size: 470x245x506mm
N.W.: 5.0KG
G.W.: 7.0KG

COMBOS

Reference:

MG 760 5 in one

Case:

Superior SECC steel plate adopted, no sharp edge.

2 x USB, Mic & Audio pins on the face panel.

Professional EMI spot design ensures no electromagnetic radiation.

Scientific cooling system design ensures the system cooling function.

Elegant case with handle makes your life more mobile.

Multimedia Keyboard:

High quantity silica gel material adopted, excellent elasticity

Ergonomic design, anti-strain-injury, 15 internet & multimedia keys.

Worldwide patented mute & waterproof design.

3D optical mouse:

Ergonomic design, advanced optical sensor technology, high precision.

Speaker:

Advanced stylish geometry design, Advanced acoustics design concept and full compatible excellent timbre

Specification:

*Dimension: 555*255*630*

N.W.: 9.7kgs

G.W.: 12kgs
