

CORE CONCEPT SIX

THE THING ITSELF The Universal

THE WAY IT WORKS The Human

This is a Universe of infinite abundance, spiritual, mental, and physical. This Bounty of Spirit, this Allness of Good, is limitless and can never be exhausted or depleted.

As Holmes says, "Our planet alone contains untold riches of every kind." And our planet is only one of an infinite number of planets in the yet uncharted Universe.

The numbers of physical forms that surround us are uncountable: fingerprints, snowflakes, wild flowers, trees, rocks, grains of sand, birds, fish, animals, insects, and so on, ad infinitum. Also uncountable are the thought seeds planted in the Law each instant and the Energy units expended by the Law in their manifestation. There is a limitless supply of everything.

The infinite bounty of Spirit is the birthright of every human. I am a child of God, created as a finite expression of God. Thus, I am heir to all the Good there is simply because of WHO I AM.

This boundless supply of Good is my inheritance, now and forever, but I can experience any form of it only to the degree that I believe it is mine, accept it, claim it, and embody it.

I can experience this infinite abundance in my life as love, money, health, talent, fulfillment, or any other form of earthly riches that my mind can conceive.

I can also experience the infinite bounty as my innate knowing that this life is only one segment of my eternal journey along a path of infinite riches.

This is the key-the kind of abundance and the amount of it that I can have is the kind and amount that I can *conceive* and *embody*.

the eternal Loving-kindness, and the
eternal Givingness of Life to all..*
