Lesson Plan Pages for use with My Father's World's "Rome to Reformation" Study

These pages were created for my personal use as a means to record the actual work my children do during this study. I've tried to include all of the main books used in this study with a space to write in the page number(s) read from that book for the day. Some books spaces are larger to allow the user to write more information about what activity was assigned from that particular book.

I suggest printing the first two pages, then writing in the student name, grade, school year, and school name. Use this for your original from which you will make copies, and make your copies to be one sheet front and back. This will reduce the number of sheets you will have to file at the end of the year. I hope that you will find these sheets helpful in your homeschool record keeping.

**Blessings,
Missy Montgomery**
