

June 4th, 2005:

Last Saturday night, June 4th, in MS Life we started session one in the book [Tupos](#) which we will be reading in groups for the next few weeks. All of us got our own copy so we could each complete the activities in the book. We learned about Freedom of Speech and thinking before you say something. Also we found out how judging others can be a BIG mistake. The word "tupos" means an example and to make an impact. So to be a tupos is to be a role model changing the lives of others, and that's exactly what this helping us do. Becoming a tupos for others to see how awesome life can be as a Christ follower.
