Athlete Council Report

This year the Athlete Council has helped to pull event schedules of different sports so participants would know where to go and compete. The Athlete Council has also recommended athletes to be featured in the new sletter. We have helped to create a new website that will be launching shortly and working on RSO proposal for a new structure in WASUSA. Several members of the Athlete Council have become inactive. If you are an athlete that would like to be a member of the Athlete Council, please email Darlene Hunter at darlene.e.hunter@gmail.com with your biographical information. As WASUSA continues to grow the Athlete Council will be incorporated more in helping with the strategic planning, website update, contributing to the monthly new sletter and helping where needed within the WASUSA organization.
