PIXIE (f)

Pixie is a pretty, short haired calico torti. She is full of life and just loves chasing shoelaces & playing tug of war with them, also likes batting table tennis balls back to you from inside her tunnel. She hardly meows except when she sees her food coming. She loves her food and gets very excited when she sees it coming. She loves exploring. She is shy at first but is a very smoochy girl once she trusts you and then she will give you head rubs & roll on her side for lots of pats. She enjoys being brushed but finds it hard to sit still and does mad dashes from room to room.

She is best suited to a quiet indoor home.

Pixie is currently sharing a home with 4 other cats and likes cuddling up with Scotty (who is also looking for his forever home), and with 19yr old Tiger (resident cat.)

Pixie is vaccinated, vet checked, flea/wormed, micro-chipped, FIV negative & de-sexed

To adopt Pixie, please visit our website & download a Cat Match application form.
